TREASURY OFFERS 13-WEEK AND 26-WEEK BILLS

The Treasury will auction two series of Treasury bills totaling approximately \$17,000 million to refund \$90,228 million of publicly held securities maturing April 19, 2001, and to pay down about \$73,228 million. The amount of maturing publicly held securities includes the 50-day cash management bills issued February 28, 2001, in the amount of \$28,036 million, and the 21-day cash management bills issued March 29, 2001, in the amount of \$40,010 million.

In addition to the public holdings, Federal Reserve Banks for their own accounts hold \$9,794 million of the maturing bills, which may be refunded at the highest discount rate of accepted competitive tenders. Amounts awarded to these accounts will be in addition to the offering amount.

Up to \$1,000 million in noncompetitive bids from Foreign and International Monetary Authority (FIMA) accounts bidding through the Federal Reserve Bank of New York will be included within the offering amount of each auction. These noncompetitive bids will have a limit of \$200 million per account and will be accepted in the order of smallest to largest, up to the aggregate award limit of \$1,000 million.

TreasuryDirect customers have requested that we reinvest their maturing holdings of approximately \$889 million into the 13-week bill and \$660 million into the 26-week bill.

We expect to issue a short-term cash management bill on Thursday, April 19, 2001. Details will be announced Tuesday, April 17, 2001.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about each of the new securities are given in the attached offering highlights.
